## **DETAILED ACTION**

### ***Election/Restrictions***

Applicant's election with traverse in the reply filed on 6-13-05 is acknowledged. The traversal is on the ground(s) that the newly amended claims which recite "shaft for striking the ball" are not independent and distinct. This is not found persuasive because the apparatus can be used in combination with metal balls, large or small practice ball, etc.

The requirement is still deemed proper and is therefore made FINAL.

### ***Drawings***

The drawings are objected to under 37 CFR 1.83(a) because they fail to show the elongated shaft and grip as described in the specification as well as the first and second regions. Any structural detail that is essential for a proper understanding of the disclosed invention should be shown in the drawing. MPEP § 608.02(d). Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes

Art Unit: 3711

made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 1, the terms are not consistent "an apparatus" or "golf assembly". Claims 1, 4, 6, what does applicant consider first and second regions, no explanation in the specification? Claim 3, "means for adjusting the angle of the face" is not clear, no explanation in the specification. Claim 4, applicant is attempting to claim a person, i.e. "the user".
